ZS HEV

FOR THE PASSION OF THE DRIVE

For a century, MG has pursued one enduring idea: the joy of driving should never fade. From its British motorsport heritage to modern roads worldwide, MG vehicles are engineered for confident dynamics, balanced performance, and a genuine connection between driver and machine. Today, that legacy evolves through electrification, purposeful innovation, and driver-focused design to bring more to every journey, and more life to the drive.

MADE FOR LIFE + MORE

The MG ZS Hybrid+ brings together efficiency and responsiveness to make everyday driving effortless. It adapts intelligently to the road ahead, switching between power sources with precision to deliver smooth, consistent performance. Whether in city traffic or longer highway stretches, it uses energy only when needed, and always with purpose so you get more from every drive: more efficiency for the everyday, more freedom for the road ahead, and more life in between.

MG ZS

ENDURANCE, ENGINEERED FOR MORE

The MG ZS Hybrid+ delivers a controlled and comfortable drive that doesn't spike, but sustains. Its hybrid system manages power efficiently, while a carefully tuned suspension setup reduces vibration and improves ride quality. Optimised chassis components help absorb road imperfections and minimise cabin noise for a smoother driving experience across varied road surfaces. This is a drive that prioritises stability and efficiency in equal measure, shaped by British Driving Dynamics and placing it as the best hybrid SUV drive in its segment.

SMOOTH & COMFORTABLE RIDE-FRONT SUSPENSION

The MG ZS Hybrid+ ride performance is more focused on road impact and comfort improvement. Based on professional tuning on suspension, steering, and the brake system, the MG ZS Hybrid+ provides a more comfortable ride experience for drivers.

ABSORBS ROAD IMPACT

By optimising the stiffness of ride bushing, impact absorption and NVH for ride comfort is significantly improved.

IMPROVES NVH

By fine tuning suspension and tires to provide a quiet driving experience and elimination of unexpected rattles.

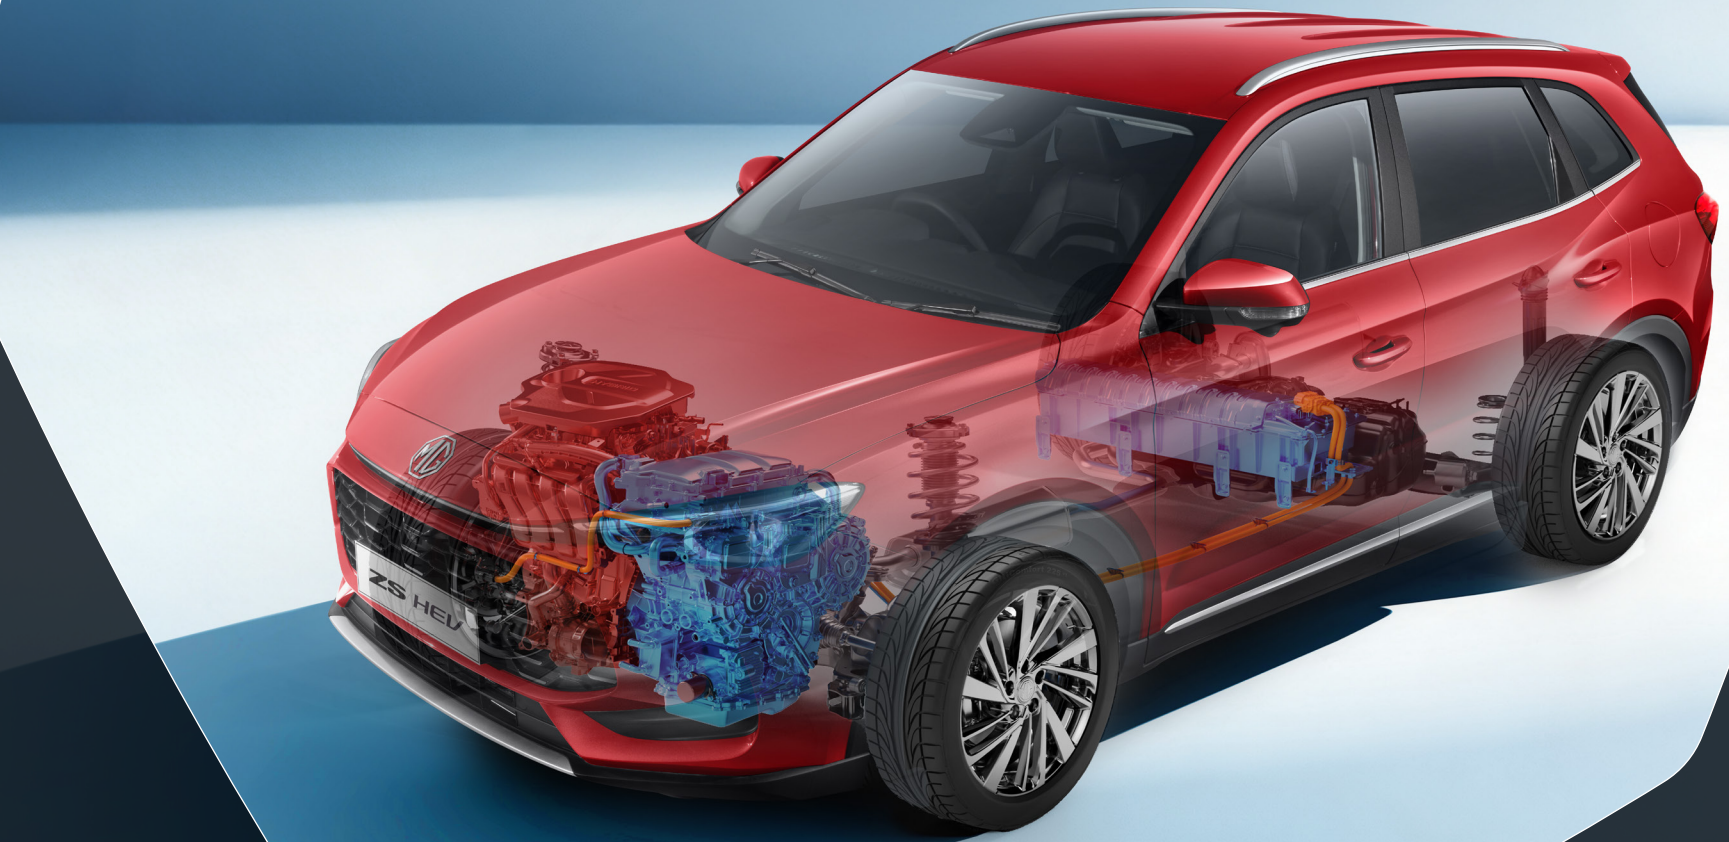

REDUCES SHAKES

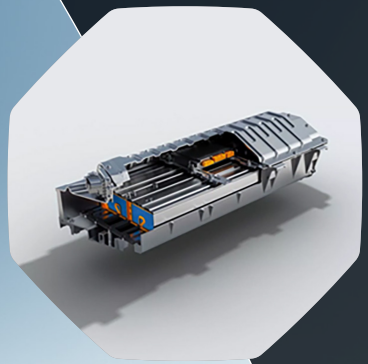

Through strict kinematic and compliance tests to isolate vibrations and reduce road shakes for a more comfortable ride experience.

HYBRID+

EFFORTLESS HYBRID TECHNOLOGY FOR MORE MILES

At the core of the MG ZS Hybrid+ is an energy management system built to go the distance. A dedicated hybrid engine and 3-speed transmission work in sync to keep performance within its most efficient range, reducing wasted energy while delivering a steady, responsive drive. With multiple propulsion modes, it adapts effortlessly in traffic, cruising, and stepping up when acceleration is needed. The result is lower fuel consumption and sustained efficiency that gives you more mileage out of every tank, and more freedom from every drive.

HYBRID+

INTELLIGENT HYBRID+ PROPULSION MODE CONTROL

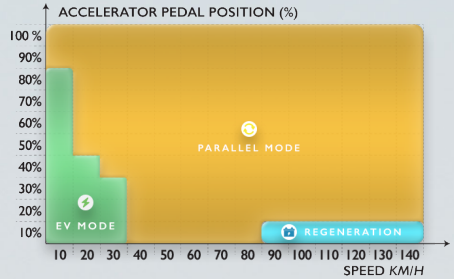

Unlike conventional hybrids, the MG ZS Hybrid+ is engineered as a seamless transition system between petrol and EV. Equipped with a high-capacity 1.83kWh battery, it offers a drive that is smoother, quieter, and significantly more responsive. This intelligent system effortlessly manages different propulsion modes to ensure you are always using the most efficient energy source — whether you're zipping through city traffic on pure electricity or cruising the highway with a combined punch of petrol and electric power.

MG ZS HYBRID+ PROPULSION MODE

CONVENTIONAL PROPULSION MODE

EV MODE:
Full electric.
Instant torque & near-silen experience.

PARALLEL MODE:
Petrol engine + electric
Motor for maxperformance.

DIRECT DRIVE MODE:
For highway cruising.
Peak fuel efficiency.

REGEN MODE:
Maximises range.
Reduces wear onbrake pads.

MADE TO MOVE WELL

The MG ZS Hybrid+ sits in compact SUV proportions with a strong, agile stance that looks ready to bring more presence to the road. The front pairs connected Hunter Eye lighting with a structured grille, giving it a focused, forward-set expression. Meanwhile, the side surfacing is shaped to manage airflow and reduce drag, while the rear keeps the lighting locked to the body lines for a clean finish.

DRIVER FOCUSED INTERIOR

COMFORT FOR MORE

The interior of the MG ZS Hybrid+ is laid out like a control zone with clear layers, minimal visual clutter, and functions placed within reach. Key controls sit close enough for quick and intuitive use, while the 3-Spoke Steering Wheel with joystick-style controls keep inputs direct, not complicated. Seats use perforated PVC and layered foam to hold support over long drives, giving you more comfort, more control, and more reason to enjoy the miles ahead.

*AVAILABLE IN LUX VARIANT ONLY

MORE ROOM FOR LIFE

The MG ZS Hybrid+ offers generous space with improved proportions across headroom, legroom and shoulder room, ensuring both rows feel genuinely comfortable and usable for everyday life. At the rear, a 443L boot provides practical everyday loading space, expanding up to 1,457L of ample space with the rear seats folded flat, giving you more room for whatever life brings, from daily essentials to bigger plans and bulkier luggage.

SAFETY & STABILITY FIRST

A full suite of driver assistance systems works continuously in the background to help monitor traffic, lanes, and speed conditions. Meanwhile, the body structure of the MG ZS Hybrid+ uses up to 81% high-strength steel, supported by a triple load path design that spreads impact forces instead of concentrating them. Six airbags provide coverage across key occupant zones, giving you more confidence to take on every journey.
